

ORACLE CLOUD OFFICE

ORACLE CLOUD OFFICE 1.0

KEY FEATURES

- Web-based office suite for word processing, spreadsheets, and presentations
- View documents on smart phones and tablets
- Easy-to-use document based collaboration
- Web 2.0 style sharing, publishing and joint presentations
- Open standard office stack based on Open Document Format (ODF)

KEY BENEFITS

- Increased team productivity with the Web 2.0 style sharing, collaboration and publishing
- More flexible and sustainable IT infrastructure based open standards

With Oracle Cloud Office, both organizations and individuals boost their productivity powered by a feature rich web-based office suite. Seamlessly integrated with Oracle Open Office, it delivers the first Open Standard Office Suite for Windows, Mac OS, Linux, Web and Mobile Phones.

Easy, Open and Secure – Your Office In The Web

The internet radically changed the information services on which the globalized world increasingly relies. Oracle Cloud Office is designed to address the needs of the knowledge worker in this context delivering the web service approach to office productivity - easy to use via browser, open for Web 2.0 style collaboration and with enterprise on-premise deployment.

Figure 1: Edit, publish and share documents via web or mobile – collaboration made easy.

Powered by a web-scale SaaS architecture, Oracle Cloud Office integrates text, spreadsheet and presentation applications. Oracle Cloud Office is available for businesses and service providers:

- **Oracle Cloud Office Professional Edition:** On-premise or on-demand deployments for business customers
- **Oracle Cloud Office for Service Providers:** Custom deployment for Telcos and ISPs (Home, Standard and Professional Editions for both individuals and business users)

Real-Life Use Cases - More Productive With Cloud Office

Oracle Cloud Office makes today's knowledge-worker routines more productive:

- **Web Presentations:** give synchronous web presentations from your browser, without the high costs and feature overhead of third party software
- **Remote Teamwork:** provide agenda, live joint presentation viewing and meeting minutes online to a remote team for conference calls
- **Mobile Office:** mobile access to all document in its latest versions, plus convenient asynchronous collaboration with sticky notes in ODF format

ORACLE OFFICE

Oracle Office is the first complete open standard productivity suite with unrivaled competitive price. Based on the Open Document Format (ODF) it delivers personal productivity, Web 2.0 collaboration and enterprise-integrated document tools on Windows, Mac, Linux, online and mobile.

- Oracle On Demand

- **Web/Enterprise 2.0 Publishing:** publish and embed documents to blogs, wikis or intranets – your changes will be kept up to date anytime, anywhere, no need of time-consuming re-distribution of out-dated versions via email

Elastic SaaS Architecture and Open Standards

Oracle Cloud Office is a SaaS application ready for carrier-grade deployments and enterprise integration. Developed by the inventors of Open Office, Cloud Office is also based on the Open Document Format (ODF). The Open Standard for Documents allows the seamless integration with other applications and empowers the collaboration with the constantly and fast growing user-base (over 100 million) of the low-cost open-standard tool.

Customer Benefit

Oracle Cloud Office is the foundation of an open standard office stack. Its innovative social approach for office productivity enhances productivity by enabling easy, document-oriented collaboration with coworkers. The seamless integration with Oracle Open Office ensures complex offline document editing and the compatibility with Microsoft file formats and PDF make it ideal for cross-company collaboration. And the open standard and multi-platform approach enable more flexible and sustainable IT infrastructures.
